> Our statewide resource guide is typically outdated by the time it hits the shelves. Changes in staffing or funding occur regularly. Using the e2 Online Resource Guide has reduced the cost and burden normally associated with paper distribution. More importantly, the guide can be easily kept current with very little effort. Thank you, thank you.

RDE is proud of its resource offerings to the community!

RDE Systems has been serving the HIV/AIDS community for over 12 years with innovative, web-based tools and services. The RDE team considers it an honor to **help those who help others** and has volunteered alongside outreach workers in the field, and beside the desk of government officials, health planners, and medical care providers. As a special **thanks** for giving, RDE Systems is providing the free Online Resource Guide to Ryan White recipients and conference participants.

Check out these other valuable, cost effective, web-based tools and resources that have dramatically improved the role of recipients, providers, health planners, and clients.
